

Vegetables for easy growing

Produce for any garden

Ten recommended vegetables

- Bush beans
- Cucumber
- Garlic
- Herbs
- Hot peppers
- Kale & collards
- Lettuce
- Radish
- Summer squash
- Tomato

These vegetables are especially good for new gardeners looking for plants that will produce a lot of food in smaller spaces like containers or raised beds.

Vegetables for bigger plots

- Corn
- Dry beans
- Melons
- Potatoes
- Winter squash
- Pumpkins

These vegetables are best grown in a garden plot since they need more space to produce a lot of food.

Shade tolerant vegetables

- Arugula
- Beets
- Cabbage
- Carrot
- Cilantro
- Kale
- Lettuce
- Onions
- Parsely
- Radish
- Spinach
- Turnip

While these plants will grow in part shade (4 to 6 hours of direct sun per day), they will produce more food in full sun (6+ hours of direct sun per day).
